

Price Guide 2024

The feeling of home.

There's nothing like the comfort and the many moments experienced in a home. Many people tell us that home is the first preference, their own home.

When moving into care becomes more of a reality, it is our experience that people and their families want options that provide high levels of respect and personal care combined with a warm and friendly environment.

We are here to help you live a life of meaning, purpose and many cherished moments.

"Exceptional loving family-like personalised multidisciplinary care for those you love the most. GHA has a wonderful innovative model of care that's the way of the future for superlative aged care. Thank you to all of the team."

FREQUENTLY ASKED QUESTIONS

What is the difference between your model and traditional aged care or a nursing home?

We deliver personalised care in a traditional home, with a small group of 6-10 residents and a high carer-to-resident ratio. Our residents live with dignity and sense of purpose in small-scale surroundings. We support residents to wake up in their own time, make individual food choices, form meaningful relationships, and contribute to the running of the home. We pride ourselves on the care that we deliver and make an effort to cherish everyone's story. We do this through deeply exploring, connecting and sharing with each person.

What kinds of dementia care do you offer?

We can care for all kinds of dementia including Alzheimer's, Vascular dementia, Lewy Body disease, Frontotemporal dementia, Young onset dementia, Parkinson's related dementia, and Wernicke-Korsakoff Syndrome.

Do you support people living with early onset dementia?

Yes. We cater to early onset dementia.

Do you accept residents who are younger than 65 years old?

Yes. We accept residents who are younger than 65 years old and who are living with high care needs.

Are you NDIS registered?

Yes. We are a registered NDIS and SIL provider.

Do you only do dementia care?

No. While many of our residents are living with dementia, we can also care for people with high care needs including cancer, brain tumors, motor neuron disease, mental health, terminal illness, Parkinson's disease and acquired brain injuries (ABI).

Do you offer Respite Care and Short-Term Stays?

Yes. We offer flexible respite known as R&R, either as a short stay or as a trial, sometimes with a view to progressing to permanent care. Pricing for respite starts at \$485 per day. Our respite care and short-term stay is a privately funded service or it can be covered by your HCP Unspent Funds.

How many people live in one room? Do they have their own bathrooms?

There is one resident per room, however we welcome couples to live together and they have the option of sharing a room or each having a separate room. Just like in a traditional family home, some rooms have ensuite bathrooms and others share. If shared it is generally one between two residents.

Can family members visit?

Yes. Visitors can come anytime of the day at Group Homes Australia. We actively encourage the friends and family of residents to stop by for a visit, to take residents out for lunch, or to spend the afternoon with them at the local shopping centre.

Are your homes secured?

Yes. All of our homes have a keypad locked front door, and the backyards are enclosed. We provide families with the code to the door and encourage them to visit whenever they would like. The homes are secured, but residents can move freely around the home and gardens.

Can residents take their pets with them?

We welcome pets at the home subject to suitability and no residents managing allergies. We have or have had dogs, cats, chickens, and rabbits live in our homes!

Are outings included in the care fees?

Outings to the theatre or other activities that attract large entry fees are optional and charged separately.

Are you a Home Care Package (HCP) Provider?

Yes. We are an Approved Provider under the Home Care Package (HCP) program. You can use your HCP to receive care in one of our homes.

What RADs (Refundable Accommodation Deposits) do you require?

We don't require RADs to move into one of our group homes. We pride ourselves on flexibility and will happily have a conversation to tailor the best arrangement for your family.

"We could not ask for better facilities or more caring and capable staff. We consider ourselves extremely lucky to have found a vacancy at GHA in our time of need. We are grateful for everything they do on a daily basis for our loved one and would recommend this company to anyone requiring dementia respite or long term living solutions for a family member."
